Acknowledgement

My sincere gratitude to all who commented and suggested changes. This include Miss A. Sankaralingam, Dr. Rashim Slota, and many students who did a special study module (also called student selected component) with me on the subject of chemical pathology (clinical biochemistry). Special thanks to Ms Julie Clayton who helped with the manuscript.

Ms. Jihan Abdat of World Scientific Publishing helped in many ways to get this book published. My sincere thanks to her. Finally, this book would not have been possible without the help, encouragement and support from my family (Kamala, Suresh, Abirami and Ramesh).

Any errors and inaccuracies in this book are no one's fault but mine.

Preface

In writing this revised edition, the overall aim of the book remains the same as the first edition. The text in this second edition has been thoroughly revised and where necessary, new material has been added.

One of the new features of this edition is the addition of summary/key points at the end of each chapter to facilitate revision. Self-assessment questions including traditional multiple choice questions and extended matching questions are introduced at the end to help with revision and examination preparation.

At the end of each chapter some key references for further reading are given to help readers.

Contents

<i>Acknowledgement</i>	v	
<i>Preface</i>	vii	
Chapter 1	Interpretation of Biochemical Tests	1
Chapter 2	Disorders of Fluid Balance	23
Chapter 3	Potassium	59
Chapter 4	Disorders of Acid–Base Balance	81
Chapter 5	The Kidneys	111
Chapter 6	Calcium Metabolism	157
Chapter 7	Magnesium Metabolism	191
Chapter 8	Disorders of Phosphate Metabolism	205
Chapter 9	Metabolic Bone Disease	219
Chapter 10	Carbohydrate Metabolism and Its Disorders	237
Chapter 11	Lipids and Lipoproteins	273
Chapter 12	Hypertension and Cardiovascular Disease	299
Chapter 13	Clinical Enzymology	325
Chapter 14	Proteins	349
Chapter 15	The Liver	379
Chapter 16	The Gastrointestinal Tract	413
Chapter 17	Nutrition	433
Chapter 18	Vitamins and Trace Elements	451
Chapter 19	The Hypothalamus and the Pituitary	475
Chapter 20	The Reproductive System	497
Chapter 21	The Adrenal Gland	523
Chapter 22	The Thyroid	553
Chapter 23	Clinical Biochemistry of Haematology	577

Chapter 24	Malignancy and Clinical Biochemistry	599
Chapter 25	Therapeutic Drug Monitoring and Toxicology	623
Chapter 26	Inherited Metabolic Diseases	655
Chapter 27	Disorders of Purine Metabolism	673
Chapter 28	Clinical Biochemistry in Paediatrics and Geriatrics	687
Chapter 29	Cerebrospinal Fluid and the Nervous System	709
	Questions and Answers	719
	<i>Index</i>	765
