Contents

	<i>List of papers on electron phonon interactions by Albert Rose</i>	ix
I	Overview	1
II	Physical concepts in energy loss processes	3
III	The acoustoelectric effects	29
IV	Energy losses by hot electrons	71
V	Field and temperature dependence of electronic transport	103
Short papers		
	Energy losses by hot electrons in solids: A semiclassical approach	143
	Classical Aspects of spontaneous emission	147
	Spontaneous emission revisited	153
	A simple classical approach to mobility in amorphous materials (I)	161
	A simple classical approach to mobility in amorphous materials (II)	169
	An extension of Einstein's treatment of spontaneous emission	175

Albert Rose: Papers on electron phonon interactions

Physical concepts in energy loss processes. *RCA Review*, **32** (1971) 463—488.

The acoustoelectric effects. *RCA Review*, **27** (1966) 98—139.

Energy losses by hot electrons. *RCA Review*, **27** (1966) 600—631.

Field and temperature dependance of electronic transport. *RCA Review*, **30** (1969) 435—474.

Energy losses by hot electronics in solids: A semiclassical approach. *Journal of the Physical Society of Japan*, Supplement, **21** (1966) 431—433.

Classical aspects of spontaneous emission. *Cooperative Phenomena*, ed. H. Haken and M. Wagner, Springer-Verlag, Berlin (1973) 303—307.

Spontaneous emission revisited. *Phys. Stat. Sol.* **61** (1980) 133—140.

A simple classical approach to mobility in amorphous materials (1). *Physics of Disordered Materials*, ed. D. Adler, H. Fritzsche and S. R. Ovshinsky, Plenum Publ. Corp., 1985, pp. 391—398.

A simple classical approach to mobility in amorphous materials (2). *Proc. of the Intl'l. Workshop on Amorphous Semiconductors*, World Scientific Publ. Co., 1987, pp. 29—34.

An extension of Einstein's treatment of spontaneous emission, *Disordered Semiconductors*, ed. M. A. Kastner, G. A. Thomas and S. R. Ovshinsky, Plenum Publ. Corp. 1987, pp. 389—394.
