A TEXTBOOK OF **CLINICAL**
OPHTHALMOLOGY

2nd edition

**A Practical Guide to Disorders of
the Eyes and Their Management**

Ronald Pitts Crick FRCS, FRCOphth

*Honorary Consultant Ophthalmic Surgeon,
King's College Hospital, London.*

*Lecturer Emeritus in Ophthalmology,
School of Medicine and Dentistry of King's College,
University of London.*

*Visiting Research Fellow, Department of Applied Sciences,
University of Sussex.*

Chairman, International Glaucoma Association.

Peng Tee Khaw PhD, MRCP, FRCS, FRCOphth

*Consultant Ophthalmic Surgeon
Glaucoma Unit, Moorfields Eye Hospital, London.
Research Consultant and Director, Wound Healing Unit,
Department of Pathology, Institute of Ophthalmology,
University College,
University of London.*

*Adjunct Professor,
University of Florida, U.S.A.*

SUB EDITORS

David C. Broadway BSc (Hons), MD, FRCOphth, DO

Senior Registrar,
Moorfields Eye Hospital, London.
Ocular Trauma and Conjunctiva.
Chapters 2, 7, 8, 24

Peter H. Constable MA, BM, BCh, FRCOphth

T.F.C. Frost Trust Research Fellow, Glaucoma Unit and Wound Healing Group,
Department of Pathology, Institute of Ophthalmology and Moorfields Eye Hospital, London.
Strabismus and Disorders of Ocular Motility,
Functional Eye Disorders and Therapeutics Pt.1
Chapters 11, 19, 21, 32

M. Francesca Cordeiro MB, BS, MRCP, FRCOphth

Guide dogs for the Blind Research Fellow, Glaucoma Unit and Wound Healing Group,
Department of Pathology, Institute of Ophthalmology and Moorfields Eye Hospital, London.
Ophthalmic Aspects of Blood Diseases,
Endocrine and Systemic Immune Disorders
Chapters 15, 16, 18

Martin D. Pitts Crick MB, BS, FRCS, FRCOphth

Consultant Ophthalmic Surgeon,
Royal Victoria Hospital, Bournemouth.
Vascular, Vitreous and Retinal Disease
Chapters 6, 14, 27, 29

Alexander J.E. Foss MA, BM, BCh, MRCP, FRCOphth

Senior Registrar,
Moorfields Eye Hospital, London.
Uveal Diseases
Chapters 7, 28

Helena J. Frank B Med Sci, MB, BS, FRCS, FRCOphth, DO

Consultant Ophthalmic Surgeon,
Royal Victoria Hospital, Bournemouth.
Ophthalmic Optics and Refraction
Chapter 4

David S. Gartry BSc (Hons), MD, FRCS, FRCOphth, DO, FBCO

Consultant Ophthalmic Surgeon, Corneal and External Diseases Service,
Moorfields Eye Hospital, London.
Diseases of the Cornea, Sclera and Lens
Chapters 6, 7, 25, 26

Paula D. Gormley MB, BCh, FRCS, FRCOphth, DO

Research Registrar,

Institute of Ophthalmology and Moorfields Eye Hospital, London.

Diseases of the Uvea

Chapters 7, 28

Peter L.O. Heyworth MB, BS, FRCOphth

Senior Registrar,

Moorfields Eye Hospital, London.

Therapeutics Pt2 and Iatrogenic Diseases

Chapters 33, 34

Ordan J. Lehmann MA, BM, BCh, FRCOphth

Lecturer in Ophthalmology, University of Southampton,

Southampton Eye Unit, Southampton.

Development of the Eye, Congenital Anomalies and Genetic Disorders

Chapters 3, 20

Andrew I. McNaught MB, BS, FRCOphth

Registrar,

Moorfields Eye Hospital, London.

Ocular and Visual Examination and Visual Physiology

Chapters 5, 12, 13

Ian E. Murdoch BSc (Hons), MSc, MD, FRCOphth

Consultant Ophthalmic Surgeon,

Moorfields Eye Hospital, London.

Wellcome Epidemiology Research Fellow,

Department of Preventive Ophthalmology,

Institute of Ophthalmology, London.

Infections and Infestations of the Eye,

Nutritional Deficiencies

Chapter 17

John F. Pitts MB, ChB, MRCP, FRCS, FRCOphth

Senior Fellow in Oculoplastic Surgery,

Moorfields Eye Hospital, London.

Diseases of the Eyelids, Lacrimal Apparatus and Orbit.

Chapters 2, 9, 22, 23, 30

ACKNOWLEDGEMENTS

The authors would like to thank, in addition to the principal illustrators, Mr Eric Arnott for Figs 6.18, 6.19; Mr David Broadway for Figs 2.1, 2.15, 2.16; Miss Sheena Caraway for Fig 11.16; Mr Peter Choyce for Plates 6.6, 17.10(a); Mr Robert Cooling for Plates 6.23, 6.24; Dr Jonathan Pitts Crick for Figs 5.3, 6.40, 12.3, 12.9, 13.2, 13.4, 13.5, 13.6, 13.9, 16.5, 31.2, 31.3, 31.6, 31.7; Mr Geoffrey Davies for Fig 6.22 and Plate 29.1; Mr Fred Fitzke for Fig 13.3; Miss Helena Frank for Figs 4.1, 4.3, 4.6, 4.7; Mr David Gartry for Figs 6.17, 6.20; Mr Michael Gilkes for Fig 5.1; Paul Hunter for Plates 17.13, 29.4; Mr I Johansen and Dr John Thygesen for Fig 6.5; Mr Jack Kanski for Fig 7.5, and Plates 8.1, 8.4a, 8.4b, 29.10; Dr Kay-Tee Khaw for Fig 19.10; Mr Andrew McNaught for Figs 13.1, 13.13, 13.19; Mr Ian Murdoch for Figs 17.1, 17.2, 17.3, 17.8, 17.9, 17.11; Mr John Pitts for Figs 19.11, 19.12 and Plates 22.2, 22.5, 23.1; Mr John Talbot for Fig 15.2 and Plate 15.1; Mr Maurice Tuck for Fig 31.19; Mr. David Wright for Figs 4.15, 31.21; Mr Peter Wright for Plates 7.20, 7.21, 7.22, 7.23, 8.2, 8.3, 10.1, 10.2, 17.4, 17.5, 17.7, 22.1, 24.1, 24.2, 24.6, 25.2, 25.4, 25.5, 25.10. We are indebted to Mr Colin Clements for much photographic assistance.

We are also grateful for illustrations to Clement Clarke International, London, for Figs 4.22, 4.25, 5.2, 11.15, 11.16, 13.7, 13.8; Hamblin Instruments, London, Fig 12.4; Interzeag Medical Technology, Schlieren Switzerland, Fig 13.11; Keeler Instruments, London Fig 12.5; Tinsley Medical Instruments, Croydon, England, Fig 13.10; Carl Zeiss, Oberkochen, Germany Fig 13.12. and for permission to reproduce our illustrations to:- The Editor British Journal of Ophthalmology for Figs 7.24, 7.26 18.7, 18.8 and Plate 18.9; Mr Malcolm Wright of MSC Consultants for Figs 13.4, 13.5, 13.6.

CONTENTS

Chapter 1	Introduction	1
	SECTION 1: BASIC STUDIES	
2	Practical Anatomy and Physiology of the Eye and Orbit The eye 5. Bony orbit and fasciae 8. Blood supply 11. Extraocular muscles 14. Cranial nerves 15. Autonomic nerves 19. Eyelids 23. Lacrimal glands 25. Lacrimal ducts 26. Conjunctiva 27. Cornea 30. Sclera 32. Lens 33. Vitreous 34. Uvea 34. Retina 38. Visual pathways 40 (337).	5
3	Formation of the Eye	41
4	Optics and Refraction Ophthalmic optics 49. Ametropia and refraction 66. Testing for squint 69. Contact lenses 71. Lasers 73.	49
	SECTION 2: COMMON OPHTHALMIC PROBLEMS	
5	Simple Methods of Eye Examination	77
6	Painless Impairment of Vision (in the White Eye) Refractive error 89. Corneal opacities 90. Lens opacities (cataract) 92. Retinal detachment 109. Retinal vascular disease 113. Posterior uveitis 119 (156). Primary open angle glaucoma 119. Optic nerve disease 130. Intracranial visual pathways disease 134.	89
7	Painful Impairment of vision (in the Red Eye) Ocular trauma 135 - contusion 135 - perforation 139 - intraocular foreign body 141. Orbital trauma 143. Burns 143. Keratitis 145 - bacterial 145 - viral 147 - chlamydial 151 - neuromuscular 152. Uveitis 153 - anterior 154 - posterior 156 - sympathetic 158 - toxoplasmic 159. Endophthalmitis 161.	135
8	Red Sticky Eyes (Conjunctivitis) Conjunctivitis 167 - investigation 167 - allergic/hypersensitivity 167 - bacterial 169 - chlamydial (trachoma) 171 - ophthalmia neonatorum 173 - viral 175 - allergic (hypersensitivity) 177 - toxic 180 - other changes 181.	167
9	Watering Eyes Investigation 184. Developmental nasolacrimal duct obstruction 185.	183

Chapter

- 10 **Dry Eyes** 191
Keratoconjunctivitis sicca 191. Filamentary keratitis 191. Lacrimal gland tumours 192 (425). Lacrimal gland inflammation 192 (425).

- 11 **Squinting Eyes (Strabismus) Disorders of Ocular Motility** 195
Definitions 195. Esotropia 198. Exotropia 206. Paralytic squint 210. Supranuclear disorders of ocular motility 227 (365).

SECTION 3: EXAMINATION OF THE EYES

- 12 **Examination of Structure** 229
Loupe 229. Slit lamp microscope 229. Ophthalmoscope (direct) 230. Ophthalmoscope (indirect) 234.

- 13 **Examination of Function** 237
Dark adaptation 238. Colour vision 239. Contrast sensitivity 241. Visual acuity 243 (77). Visual field 245. Ocular motility 256. (69, 86, 203, 211). Pupils 256 (87, 384) Electronic objective visual tests 257. Ocular blood flow 259.

SECTION 4: SYSTEMIC OPHTHALMOLOGY

- 14 **Cardiovascular Conditions** 261
Fluorescein angiography 261. Retinal vascular changes 262. Hypertension 266.

- 15 **Blood Diseases** 269
Sickle cell 269. Polycythaemia 271. Vitamin B12 deficiency 272. Leukaemia 272. Lymphoma 273. Multiple myeloma 274. Waldenstrom's macroglobulinaemia 274. (Histiocytosis X 275).

- 16 **Endocrine Diseases** 277
Thyroid 277. Diabetes 284.

- 17 **Infections and Infestations Nutritional Deficiencies** 289
Bacteria 289. Virus 298 - HIV/AIDS 301. Chlamydia 307. Rickettsiae 307. Fungi 307. Protozoa 309. Metazoa 311. Parasitic cysts 316. Nutritional deficiency 318 - vitamin A 319 - vitamin B 321 - vitamin C 322 - vitamin D 322.

Chapter

- 18 **Systemic Immune Disorders (Collagen Diseases)** 323
 Rheumatoid arthritis 323. Still's disease and JCA 324. Sjögren's syndrome 325. Ankylosing spondylitis 325. Reiter's disease 326. Behçets disease 326. Systemic lupus erythematosus 328. Polyarteritis nodosa 329. Scleroderma 329. Dermatomyositis 330. Sarcoidosis 330. Wegener's granulomatosis 333. Stevens Johnson syndrome 334. (179, 441). Giant celled (temporal) arteritis 324 (116). Myasthenia gravis 334.
- 19 **Neurology** 337
 Optic nerve 337 - pressure effects 342. Optic neuropathy - inflammatory 348 - toxic 348 - nutritional 349 - vascular 350. Optic atrophy 351. Optic chiasma 354 - pituitary 354 - craniopharyngioma 356. Optic tracts 357. Lateral geniculate bodies 358. Optic radiations 358. Visual cortex 360. Cerebral aneurysms 360. Migraine 362. Cerebrovascular insufficiency 363. Supranuclear disorders of ocular motility 365. Myopathies 370. Nystagmus 371. Pupil reflex arcs 378. Myotonic pupil 381. Horner's syndrome 383. Argyll-Robertson pupil 384. Afferent pupil defect testing 384.
- 20 **Congenital Abnormalities and Genetic Disorders** 387
 Intracranial infections 387. Retinopathy of prematurity 388. Chromosomal abnormalities 388. Genetically determined congenital malformations 389. Genetically determined ocular conditions 393. Inherited disorders with systemic and ocular complications 394 - pigmentary 394 (479) - lipid 394 - amino acid 395 - connective tissue 396 - mucopolysaccharide 397 - carbohydrate 398 - copper 399. Phakomatoses 399. Developmental abnormalities of the orbit 401 (499).
- 21 **Functional Disorders** 403
 Functional visual loss 403. Illusions and hallucinations 406. Functional disorders of the lids 406. Self inflicted injuries 407.
- SECTION 5: REGIONAL OPHTHALMOLOGY**
- 22 **Eyelids** 409
 Malpositions 409. Inflammatory conditions 414. Cystic lesions 415. Epithelial lesions 417. Haemangiomas 420. Kaposi's sarcoma 420 (304). Neurofibroma 420 (399,494). Pigmented tumours 421. Eyelid lacerations 422 (141). Congenital lid abnormalities 422.
- 23 **Lacrimal Apparatus** 425
 Lacrimal gland 425 - dacryoadenitis 425 - tumours 425. Lacrimal ducts 426 - congenital anomalies 426 - canaliculitis 427 - dacryocystitis 428 - laceration 428.

Chapter

24	Conjunctiva	429
	Degenerations 429. Pigmented tumours 430. Lymphomas 433. Squamous cell tumours 434. Kaposi's sarcoma 434 (304). Cysts and dermoids 435.	
25	Cornea and Sclera	437
	Congenital abnormalities 437. Inflammation - bacterial 437 - viral 437 - fungal 438 - chlamydial (trachoma) 438 - Mooren's ulcer 438 (Terrien's degeneration 438) - phlyctenular 438 - filamentary 439 - superficial punctate 439 - superior limbic 440 - Thygeson's keratitis 440, Conditions secondary to conjunctival disease 440 - ocular cicatricial pemphigoid 441 - Stevens-Johnson syndrome 441 (179, 334). Pterygium 441 (429), Abnormal pigmentation 441. Corneal dystrophies 442. Arcus 445. Band shaped keratopathy 445. Corneal grafts 446. Sclera 449. Staphyloma 449 - scleritis 449 - injuries 450 (135).	
26	Lens	451
	Principles and complications of cataract surgery 451. Lens displacements 456.	
27	Vitreous	459
	Vitreous collapse (detachment) 459. Pre-retinal membranes 460. Vitreous haemorrhage 461 (107), Vitreous degenerations 461. Vitreous surgery 462.	
28	Uvea	465
	Uveitis 465 (153). Injuries 465 (135). Serous choroidal detachment 465. Uveal tumours 466 - melanocytic 466 - choroidal haemangiomas 471. Uveal degenerations 472.	
29	Retina	475
	Assessment of retinal function 475. Disorders of the retinal vascular system 475. Retinal vasculitis 476. Retinal infections 477. Retinal disorders associated with haemorrhage and blood diseases 477. Retinal degenerations 477 - pigmentary 477 - variants 479. Primary macular degenerations 480. Phakomatoses 481 (399). Cerebro-macular degenerations 481. Fluid separation of retina 481. Retinal detachment 482 - rhegmatogenous 482 (109) - exudative 483 - traction 483. Cystic conditions - retinoschisis - cystoid macular degeneration. Retinal separation with central choroido-retinal degeneration 484 - central serous retinopathy 485 - pigment epithelial detachment 485 - disciform degeneration of the retina 485. Injuries 486. Toxic effects 486 (567) Retinoblastoma 486.	

Chapter

30	Orbit	489
	Evaluation of orbital disease 489. Thyroid disease 491. Orbital infection 491. Lymphoma 492, Orbital mass lesions - mucocele 493 - dermoid 493 (392, 416, 435). Tumours - vascular 493 - neural 494 - rhabdomyosarcoma 495 - osteoid 495 - local spread 495. Fractures 496 - external 496 - blow out 497. Orbital developmental abnormalities 499.	
31	Disorders Associated with the Level of Intraocular Pressure	503
	Glaucoma and intraocular pressure 503. Primary closed angle glaucoma 506. Primary open angle glaucoma 507. Tonometry 509. Ophthalmoscopy 514. Perimetry 516. Gonioscopy 517. Epidemiology of glaucoma 520. Clinical features of primary closed angle glaucoma 524 - of primary open angle glaucoma 526 - of secondary glaucoma 529. Hypotony 534.	
	SECTION 6: THERAPEUTICS AND IATROGENIC DISORDERS	
32	Therapeutics Part 1	535
	Routes of administration 535. Mydriatics 538. Cycloplegics 538. Miotics 542. Carbonic anhydrase inhibitors 546. Osmotic agents 547.	
33	Therapeutics Part 2	549
	Therapeutic agents - antibacterial 549 - antiviral 553 - antifungal 556 - antiprotozoal 556 - anti-inflammatory 556 - local anaesthetic 561 - other agents 564.	
34	Iatrogenic Disorders	567
