Equation (10) on page 67 of the paper should be corrected as following:

$$\mu_{path_m}^i = \prod_j \mu_{G_{jm}}(x_j^i) = \prod_j \exp\left(-\frac{(x_j^i - c_{jm})^2}{2\sigma_{jm}^2}\right)$$

Equations for $\mu_{path_2}^i$ and $\mu_{path_3}^i$ on page 67 should be corrected as following:

$$\begin{aligned}\mu_{path_2}^i &= \prod_{j=6,2} \mu_{G_{j2}}(x_j^i) \\ &= \exp\left(-\frac{(x_6^i - c_{62})^2}{2\sigma_{62}^2}\right) \times \exp\left(-\frac{(x_2^i - c_{22})^2}{2\sigma_{22}^2}\right) \\ \mu_{path_3}^i &= \prod_{j=6,2} \mu_{G_{j3}}(x_j^i) \\ &= \exp\left(-\frac{(x_6^i - c_{63})^2}{2\sigma_{63}^2}\right) \times \exp\left(-\frac{(x_2^i - c_{23})^2}{2\sigma_{23}^2}\right)\end{aligned}$$
