Errata

Condensate-enclosed chiral-bag model of the proton and pp elastic scattering at LHC 13 TeV

[Mod. Phys. Lett. A **30**, 1550218 (2015)]

M. M. Islam and R. J. Luddy

On p. 8, in the paragraph that begins: The parameters found for the amplitude $T_{gg}(s, t)$ (Eq. (16)) are γ_{gg} , λ , μ , m : $\gamma_{gg} = 1.01$,

The parameter γ_{gg} should be 0.101.
