On the nature of the neutrino

[Mod. Phys. Lett. A **31**, 1650113 (2016)]

R. Romero

On p. 4, Table 1, the third operator on the second column should be a so that the term reads $a_+^\dagger(\mathbf{p})|0\rangle$.

On p. 7, Eq. (28) a complex conjugation symbol is missing from the R matrix, so the equation should read

$$CP\Psi(x)(CP)^\dagger = i\gamma^2 R^*(\mathbf{p})\Psi^*(x) \quad (28)$$
