LOW-ENERGY QUANTUM STRING COSMOLOGY

[INT. J. MOD. PHYS. A, Vol. 13, No. 28 (1998) 4779–4786]

M. GASPERINI*

In the paper, Eq. (2.2) is incorrect and it should be

$$g_{\mu\nu} = \text{diag}(N^2(t), -a^2(t)\delta_{ij}), \quad a = \exp\left[\frac{\beta(t)}{\sqrt{d}}\right], \quad \phi = \phi(t), \quad (2.2)$$

Eq. (3.1) is incorrect and it should be

$$[\partial_\phi^2 - \partial_\beta^2 + \lambda_s^2 V(\beta, \bar{\phi}) e^{-2\bar{\phi}}] \psi(\beta, \bar{\phi}) = 0. \quad (3.1)$$
