Received 27 July 2011

Revised 12 October 2011

Due to a transmission error, Fig. 4 of the above article was published wrongly. The correct figure is:

Fig. 4. The polaritonic band structures for multiferroic superlattice near the Brillouin zone center. The piezomagnetic coefficient is taken as $T_{31} = 1.12 \times 10^{-9}$ m/A, the other material parameters are the same as Fig. 2.
