Published 28 December 2012

This paper was published online on 5 November 2012 with a misprint of reference citation on page 2, first paragraph, in the last sentence. The reference number 23 should be cited (i.e., “For more detail the interested reader is referred to a review report by Dutta *et al.*²³”).

This misprint has been corrected in both the online and print versions of IJMPE Vol. 21, No. 12 (2012) issue.
