There are some type errors in this paper. Their corrections are listed below:

- Page 377, line 4 of the text: The cylinder is $Q_T = \Omega \times (-T, 0)$ instead of $Q_T = \Omega \times (0, T)$;
- Page 379, Definition 2.5(2): The power of r is $-(n+2)$ instead of $-(n+1)$;
- Page 380, Definition 2.8: In formula (2.1) of the fundamental solution $\Gamma(x_0, \xi)$, t should be replaced by $(t - T)$ at all 4 places.
