There are some minor mistakes in the published version of our paper, which we would like to correct here.

In the Abstract, on page 21, third line from the top: it should be “cons of current micro-mobility” instead of “cons of current IP micromobility”;

In Section 2, on page 22, first line of the first item: it should be “which is used when” instead of “which is used for example when”;

In Figure 4, on page 27, in the caption: it should be “while SIP needs full-state Servers” instead of “while SIP needs full-state Server”;

In Section 5, on page 29, in the title: it should be “A New Proposal” instead of “A new proposal”;

In Section 8, on page 34, last sentence: it should be “to be investigated in the future works” instead of “to be investigated the further works.”
