ERRATUM

AXISYMMETRIC VIBRATION OF POLAR ORTHOTROPIC CIRCULAR PLATES OF QUADRATICALLY VARYING THICKNESS RESTING ON ELASTIC FOUNDATION

N. BHARDWAJ and A. P. GUPTA

[IJSSD Vol. 5, No. 3 (September 2005) 387–408]

There are some type errors in this paper. The corrections are listed below:

- The affiliation of the second author, Professor A. P. Gupta, should be as follows:

Department of Applied Science,
 Institute of Technology and Management,
 Sector 23-A Gurugram-122 017, India

- On page 393, the first line of the text should read as:
 Tables 11 to 13 present the values of Ω^* for first four modes of $\mathbf{F}$, $\mathbf{S}$ and $\mathbf{C}$ -plates respectively for various values of orthotropy constant e_r and foundation parameter K_f .
- On page 404, the caption of Fig. 4 should read as:
 Three-dimensional mode shapes for $\mathbf{F}$, $\mathbf{S}$ and $\mathbf{C}$ -plates when $e_r = 5.0$, $\nu_r = 0.3$, $K_f = 100$, $\alpha = \beta = 0.4$ (upper), and $\alpha = \beta = -0.4$ (lower).
- On page 405, the first sentence in the Acknowledgment should read as:
 The first author is grateful to Mr. Punit Kumar (Lecturer, Mechanical Engineering Department, Regional Engineering College, Kuruchatera, Haryana) for his assistance in the coding of the computer program.
